SafeHaven Pest Control incorporated In2Care Traps into our 2018 mosquito program as a stand-alone service as well as in our bundled pest and mosquito services plans. In2Care traps became a big motivator for our clients to upgrade to larger SafeHaven bundled service plans. As a result our clients reported fewer mosquitos, and our callbacks reduced, increasing our profit margins.

Our technicians found the In2care traps easy to set up and maintain. We will continue to offer In2care as an integral part of our mosquito control program next year.
